Expanding Possibilities For Patient Care.

ENLITIC

ONE INTELLIGENT SOLUTION FOR EVERY INTELLIGENCE SITUATION.

Empowered by Enlitic Intelligence, **Curie™** is an enterprise platform that combines disjointed processes into one simplified workflow.

Curie™ | EMPOWERED BY ENLITIC

Curie utilizes human, artificial, and real world intelligence to create an evidence-based solution that makes healthcare information more collaborative, adaptable, relevant, and enlightening for medical professionals.

The Curie Platform features a host of AI-powered solutions for data normalization, AI orchestration, risk reduction, and generation of real world evidence – making your vision of seamless integration a reality.

STANDARDIZATION

As the core innovation within the Curie platform, STANDARDIZE operationalizes AI for the healthcare environment and makes critical care content more reliable, available, searchable, and accessible.
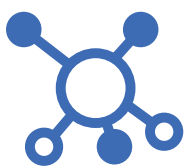

IDENTIFICATION

Curie applications use Computer Vision and Natural Language Processing to enable application of real world insights to ensure that better patient outcomes are achieved.

DETECTION

Curie enables prospective and retrospective analysis to detect discrepancies and abnormalities that support triage, detection, and diagnosis.

ANALYZATION

Curie applications provide insight and analysis models that help clinicians prevent over or under-called findings within workflows.

ON-PREMISE
On-site incorporation

VENDOR-AGNOSTIC
All modalities

MAPPED TO EXISTING PACS
DICOM standards

Note: only approved Algorithms may be used for prospective analysis.

About Enlitic

Founded in 2014, Enlitic is a medical intelligence company that believes in evolving patient care. Our products, innovations, insights, and solutions were developed with Enlitic Intelligence – Intelligence designed for Collaboration, Adaptability, Relevance, Enlightenment. Or as we say, Intelligence that cares.
